玄玄棋經

Xuanxuan Qijing

(Gengen Gokyo)

"It is a matter of life and death, a road either to safety or to ruin.
Hence it is a subject of inquiry which can on no account be neglected."

— Sun Tzu: The Art of War

Preface

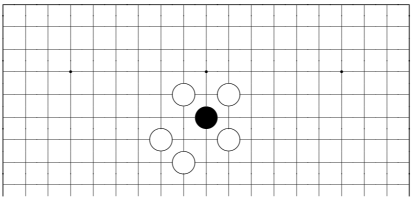

Gateway to All Marvels. Xuanxuan Qijing is a classical Chinese collection compiled by Yan Defu and Yan Tianzhang around year 1347. Its perhaps more popular Japanese name is Gengen Gokyo.

This version is one of the more complete ones, containing 347 dan-level problems. All positions are shown as **black to play**.

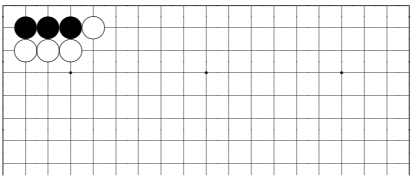

Third edition note

Originally published in 2006, it's been twenty years. This booklet has been downloaded over a hundred thousand times. I never imagined the reach it would have.
